

ECONOSEAL[®]

MINI MONOSEAL

Simple and safe semi-automatic carton flap glue sealer that can be used to seal carton end flaps, hinge covers, side glue joints, gable tops, etc.

The ECONOSEAL Mini Monoseal is a semi-automatic flap gluing device that includes the following standard features:

- Portable, self contained table top design
- Simple and proven ECONOSEAL hot melt glue pot system
- Foot pedal cycle start
- Quickly adjustable for different sizes without the need for tooling
- 115 volt power (optional 220 volt) - NO Air Required

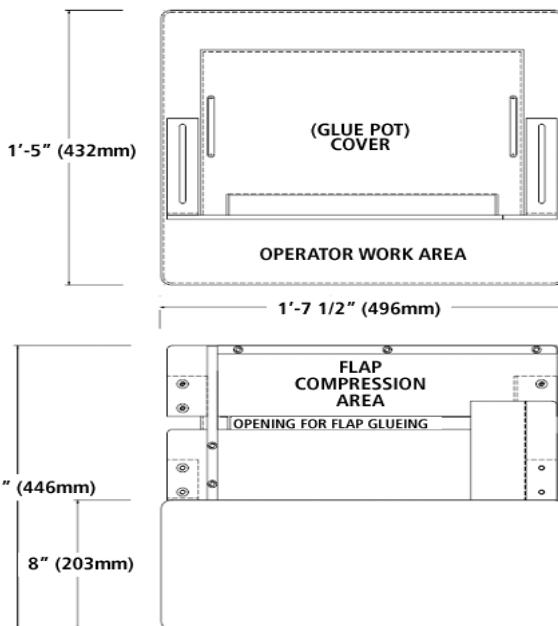

Method of operation:

1. Operator presents one end of a carton in position over the glue pot and starts the cycle via a foot pedal.

2. Carton is then manually lifted against a squaring device on the compression panel and hot melt seals the carton flaps.

MINI MONOSEAL ENGINEERING DETAILS
